# ENCORE RINSE™ ENCAPSULATION RINSE

Encore Rinse is an acid rinse that removes residues when using the hot water extraction method. Encore Rinse employs encapsulation technology, leaving a fresh floral fragrance. Carpets, rugs and furniture finish with a residue free surface that will stay cleaner longer.

Encore Rinse will:

- Help prevent wicking of soil and spots
- Stabilize dyes
- Dissolve urine residues
- Prevent wicking
- Remove residues
- Utilize polymer encapsulation technology
- Exceed all standards of wool fiber care

Ready to use pH is 4.04

#### Use:

##### **Carpet, Rugs, Upholstery**

For truck mount equipment mix 1 part of Encore Rinse with 20 parts water. Meter through the system at 2 – 4 GPH.

For portable extraction equipment mix 1 part of Encore Rinse with 300 parts water.

##### **Urine Residue**

Mix 1 part Encore Rinse with 32 parts water and spray area until saturated. After 10 minutes, clean area using the hot water extraction method then deodorize.

Complete cleaning and restoration supplies.
